

Epson T822XL Series Firmware Update Notification

Date: July 16th, 2022

Dear Customer,

On July 16th 2022, Nu-Tone&CO found that Epson released a firmware update involving the Epson T822XL series. Compatible or refurbished cartridges cannot be recognized by upgraded printers.

Our suggestions:

1. We recommend that you sell your existing inventory as soon as possible.
2. We recommend the customer not to actively upgrade to the latest firmware version.
3. For more details on upgraded products, please do not hesitate to contact your representative.

List of affected products:
