Compatible & remanufactured
cartridges of superior quality

AboutUs

With over 16 years of experience in the industry of printing supplies, Nu-Tone has been able to build on its experience and knowledge in this now mature industry. Nu-Tone is always striving to excel and innovate. We know that today's markets are highly competitive and this is why Nu-Tone has been able to develop high quality products, solutions and more attractive and appealing alternatives thus enabling our customers to differentiate themselves from the competition.

It is worth mentioning that Nu-Tone offers its products and services to resellers and previously authorized distributors.

OurMission

Become your best ally in growing your business by establishing a sustainable and profitable relationship while offering products and customer services that meet your expectations.

QualityCertifications

STMC – Standardized Test Methods Committee.

For more than a decade, the STMC (Standardized Test Methods Committee) logo is the quality brand in the industry of remanufactured cartridges. As a seal of trademark, the STMC designation tells the consumer that the cartridge purchased was manufactured in accordance with specific quality and performance standards.

This global committee was formed to find and promote standardized test methods for the printer cartridge industry. The test methods are used to evaluate toner printer cartridge performance. Furthermore, these methods make it possible to evaluate a cartridge anywhere and come up with the same test results no matter which organization tests it.

A company that is STMC certified is one that has had their employees trained by one of the 25 authorized training personnel worldwide. Nu-Tone international is proud to be amongst some 250 companies to have received this certification.

OurWarranties

All Premium Tone, Eco Tone and Premium Tape products come with a one year replacement warranty against malfunctions or manufacturing defects.

All Premium Ink products come with a free one year replacement warranty against malfunctions or manufacturing defects on compatible products and 6 months on remanufactured cartridges.

All Eco Ink products come with a free 6 months replacement warranty against malfunctions or manufacturing defects.

Nu-Tone guarantees that under normal use, an ink cartridge or drum cannot damage or break the devices that use them. In the event of a cartridge causing damage to a device, despite our rigorous controls, we will assume the cost of repairs to the extent that we have been advised by the customer before such repair is performed. If necessary, Nu-Tone will make arrangements to dispatch a qualified technician.

Technical support

Nu-Tone provide a direct and anonymous hotline to help you or your clients manage and resolve any problem related to our products. This entirely free service is offered in French and English. We can also offer on-site service to your end-users on your company's behalf. Support by a qualified technician is also available via online chat.

**FREE TECHNICAL SUPPORT,
A NU-TONE EXCLUSIVITY!**

RecoveryProgram

Nu-Tone buys and recovers a wide selection of empty laser toner and ink jet cartridges.

Each year, we recover thousands of ink and toner cartridges which would otherwise be put to waste.

Some advantages of our program:

- Good for the environment
- Simple and easy collection system
- Detailed breakdown of paid cartridges
- Management of timely payments
- Full recovery system for cardboard and plastic
